SUMMARY

Full Stack Developer with 1.5 years of experience in building and managing web applications. Proficient in ASP.NET MVC, ASP.NET Core Web API, Angular and SQL. Strong team player, working in Agile environments to deliver scalable, secure solutions.

WORK EXPERIENCE

Evolutyz IT Services

February 2023 - Present

Associate Trainee

August 2023 - Present

Roles and Responsibilities

- Develop and maintain both front-end and back-end features for web applications.
- Develop RESTful APIs to facilitate communication between front-end and back-end systems.
- Design, implement, and manage databases using SQL Server, PostgreSQL.
- Participate in Agile/Scrum development processes, attending daily stand-ups, sprint planning, and retrospectives.
- Debug and resolve issues across the stack, from front-end bugs to server-side issues.
- Implement security best practices (e.g., JWT authentication, data encryption) to safeguard web applications.

Projects

E-Gifting

April 2024 - Present

An e-commerce application for buying and selling cakes and flowers.

Technologies Used: Angular, ASP.NET Web API, PostgreSQL, Azure, Agile methodology

Evolutyz Corner

August 2023 - April 2024

A Human Resource Management System (HRMS) focusing on user and client on boarding, project management, timesheet submissions and leave management for employees and managers.

Technologies Used: ASP.NET MVC, SQL, Azure, Agile methodology

Roles and Responsibilities

- Learned and applied the fundamentals of ASP.NET MVC to develop web applications using C#.
- Gained hands-on experience in designing and managing databases with SQL Server, focusing on writing queries and optimizing database performance.
- Collaborated with senior developers to troubleshoot issues, debug code, and improve technical problem-solving skills.
- Became familiar with industry best practices in code management, version control, and team collaboration tools.

Mini Projects

Food Management System

An online portal for organizations, allowing employees to select food from menu and enabling the admins to update the menu daily.

Frontend Code: <https://github.com/krishna1330/FoodManagementSystem-Frontend>

Backend Code: <https://github.com/krishna1330/FoodManagementSystem-Backend>

Technologies Used: Angular, ASP.NET Web API, SQL Server

SKILLS

Frontend: Angular, NgRX, JavaScript

Backend: C#, ASP.NET MVC, ASP.NET Core Web API, ADO.NET, Entity Framework

Database: SQL Server, PostgreSQL

EDUCATION

Bachelor of technology

Vignan's Institute of Information Technology

8.24 CGPA

2020 - 2023

Diploma

Government Polytechnic, Visakhapatnam

84.22%

2017 - 2020

SSC

Priyankas Vidyodaya High School

10.0 CGPA

2017
